LEVERAGE DISCLOSURE

Using borrowed money to finance the purchase of securities and/or crypto assets involves greater risk than using cash resources only. If you borrow money to purchase securities and/or crypto assets, your responsibility to repay the loan and pay interest as required by its terms remains the same even if the value of the securities and/or crypto assets purchased declines.

A brochure describing the nature and limits of coverage is available upon request. www.cipf.ca.

Free credit balances in non-registered accounts represent funds payable on demand which, although properly recorded in our books, are not segregated and may be used in the conduct of our business. Cash balances in registered accounts are held in trust by Canadian Western Trust. Occasional failed deliveries from executing brokers can cause shares to be desegregated based on approved segregation logic.

Fully paid securities lent under Wealthsimple Investments Inc. (WSII) fully paid lending program are not eligible for Canadian Investor Protection Fund (CIPF) coverage. Fully paid securities not lent under WSII fully paid lending program and held at WSII, as at the date of insolvency of WSII, are eligible for CIPF coverage.

CIPF does not cover the client's fully-paid securities that are on loan under the FPL program. There is a risk that, in the event of a Dealer insolvency, if there is a shortfall in the assets available in the customer pool, the client may not receive back the securities on loan. All fully-paid securities of clients in the FPL program that are not on loan, however, remain eligible for CIPF coverage.

Some stock loans involve the lender paying (and the borrower receiving) a fee. A lender would be interested in these types of loans when interest rates are higher and the interest earned on the cash collateral exceeds the cost of the fee paid to the borrower. Wealthsimple will lend your shares in this way when there are no loans available where the borrower will pay us a fee, and the interest earned on the cash collateral exceeds the cost paid to borrowers to lend your shares. When this happens, your shares are loaned out and you receive a portion of the interest income. You are not charged for any fee paid to the borrower. These loans are reflected on your stock loan confirmations with a loan rate of 0%.
